MEDIA STATEMENT

NBCRFLI REFUSES TO BE DRAWN INTO A PUBLIC SPAT WITH ISS

The National Bargaining Council for the Road Freight and Logistics Industry (NBCRFLI/Council) has noted with concern another defamatory media statement issued by Innovative Staffing Solutions (ISS) Director, Mr Arnoux Maré.

The NBCRFLI refuses to be drawn into a public spat with ISS and will explore the legal options available to it against these defamatory statements. “We will not allow ISS’s misleading media statements to divert our attention from the substantive legal issues before the court which relate to non-compliance with the Main Collective Agreement (MCA) and failure by Mr Maré to comply with the court order,” said Musa Ndlovu, National Secretary of the NBCRFLI.

The NBCRFLI’s audited financial statements, including those for the financial year ending 28 February 2026, are available on its website, on which Council has repeatedly received unqualified audit opinions. Council continues to enforce compliance with the MCA without fear or favour and disburses workers’ benefits without challenge.
